**Keyword:** Islamic, Muslim, ethics, society, etc.

## 1. Introduction

Islam means 'Peace' and true peace in terms of internal and external feelings which comes when someone surrender to God and be obedience with acts in all walks of life for real peace to mind. Muslim is a word of Arabic means having spirit for surrendering to God. Being a Muslim everything carries for a society and society is an institution of individuals which role are very much responsible through duties they have to serve for needs of society. There is for functioning for better society which requires social institutions, political institutions, educational institutions, religious institutions and economic institutions. When society acts with organizing, guiding and performing their duties in an appropriate manner then consistent social environment emerge.

Education is a very important for individuals' progress. It helps individuals to get ideas, intellectuality, morality, ethical values, and good things in life which can be apply in right way. Education gives understanding and knowing circumstances and changes in the different parts of society. The nations can develop and prosperous through education and people in society get good and comfortable lifestyles. The lack of basic education makes a person blind in life. There is a main aim to focus on education is the process of developing the whole person in minds, habits and other features and it fits from one generation to another generation . In Addition, education is a tool of the state to create a unity among citizens which contributes to the stability of the state as well as the needs of the social, cultural, economic and political setup of the state.

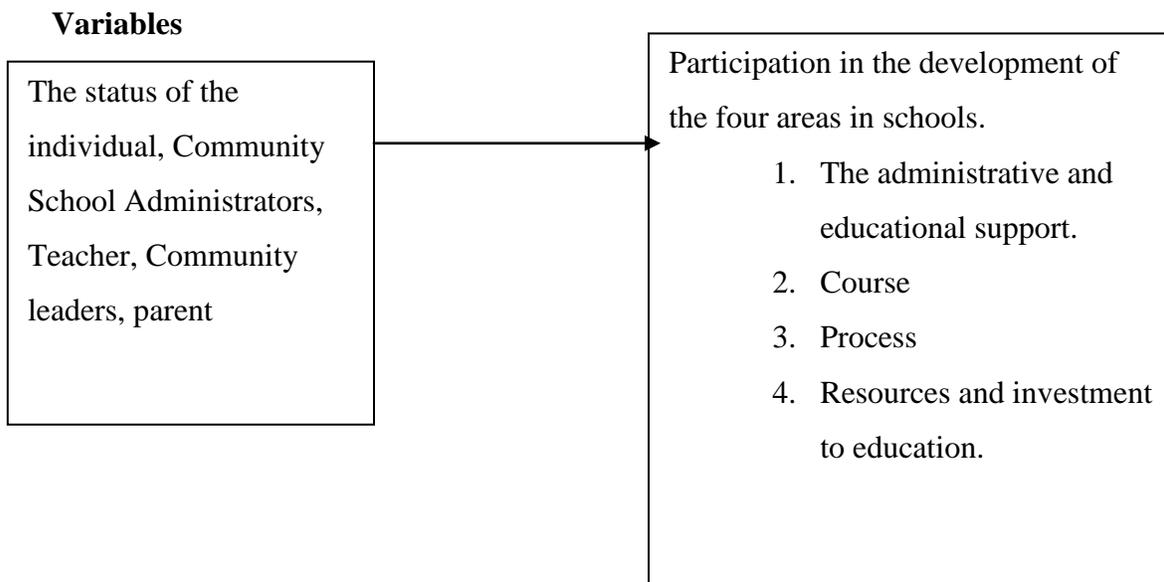

Education is a process of intellectual and moral components to help for those who are oppressed in the society and bring best life to the people who are well equipped with education. Dedicated management is required for lifelong learning approach in the society and in Thailand to build society of learning there are

guidelines for creating a knowledge society are needed. At the community level, the process of learning needs well organized by associated organizations and maximum use of technical services for beneficial and development of the community. The life-long learning approach in society of Thailand leads to fulfill the wisdom of Thailand towards progress of society.

Every Muslim must be part of learning whether the religious knowledge or worldly knowledge especially to learn story of salvation and the purpose of learning to faith and devotion for God. Manage religious learning in Islam is the fundamental duty of Muslims for supporting basic education to the society and community. Learning and understanding of religion through teaching happens since early childhood because education is essential for human life. There is lack of quality people if people are uneducated and in Islam there is God says human being learns from the cradle to the grave. In this regard every Muslim must be obliged to seek for knowledge. The duty of Muslims must be royalty to God and engage themselves in the learning of sciences in order to live in this world. Education is an area to make people success in this world and next world and at the same time every Muslim must learn for life as per guideline of Quran.
